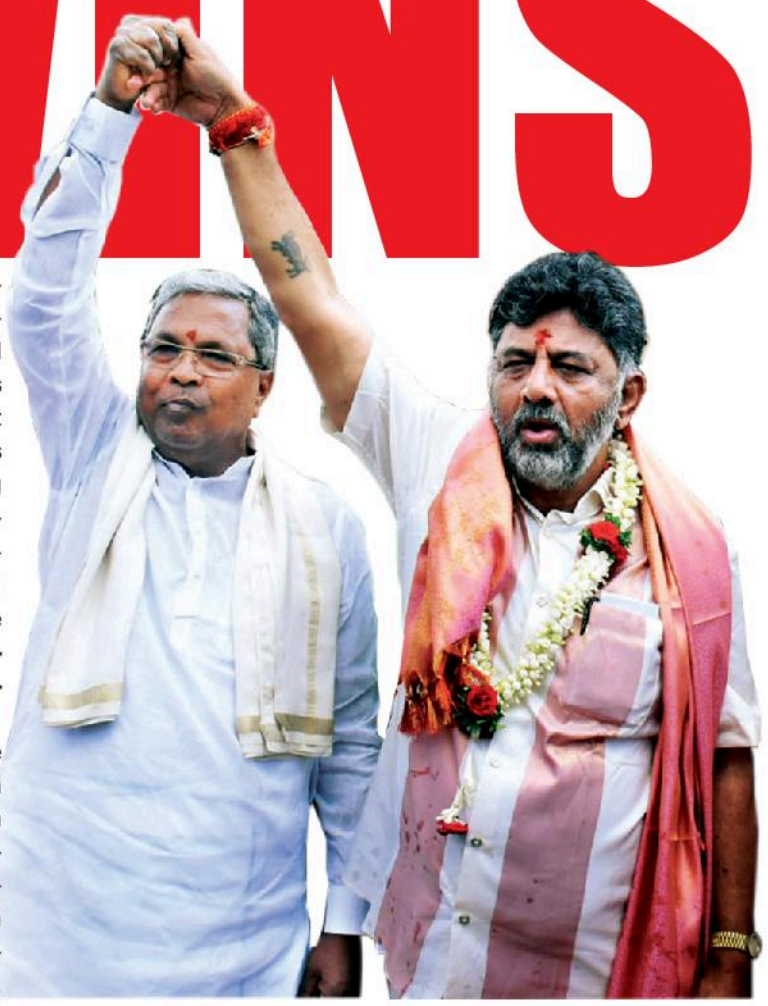
CONGRESS WINS



Bengaluru, May 13 (OSR)- Karnataka Chief Minister Basavaraj Bommai has conceded defeat of BJP as the Congress sailed past the halfway mark at 2.30 pm, leading in 136 seats (winning 29 seats). The ruling BJP is leading in 63 seats (winning 13 seats) and H.D. Kumaraswamy's JD(S) is ahead in 21 seats (winning 4 seats) while others led in 4. **Bommai is expected to tender his resignation this evening.**

Firmly in the saddle, the Congress is poised to breach arch-rival BJP's lone southern citadel of Karnataka. In the 224-seat Karnataka Assembly, a party needs to win 113 seats to form the Government which the Congress has already exceeded.

Banking on a high-powered campaign led by Prime Minister Modi, BJP was looking to break a 38-year trend where the ruling party has never returned to power for a second consecutive term.

Bommai told reporters: "In spite of a lot of efforts put in by the PM and BJP workers, we have not been able to make the mark. Once the full results come, we will do a detailed analysis... We take this result in our stride to come back strongly in LS polls."

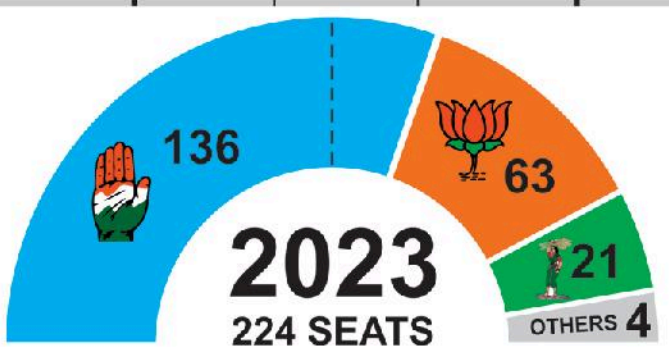
For Congress, the results are important in view of Assembly polls in three States by this year end. The party is hoping to make a comeback in Rajasthan and Chhattisgarh. It is also hoping to win Madhya Pradesh, where its Government collapsed in 2020 with the defection of Jyotiraditya Scindia and his loyalists.

(See CONGRESS on page 6)

KARNATAKA 2023 ASSEMBLY ELECTION

● SEATS: 224 ● Simple Majority: 113

PARTY	2023 POSITION LEAD	WON	TOTAL	2018
INC	107	29	136	80
BJP	50	13	63	104
JD(S)	17	4	21	37
OTHERS	4	—	4	3



Note: Party positions listed above is till 2.30 pm

Lotus wilts in Kodagu

20-year BJP run ends as Congress wins both seats

Madikeri, May 13- The hilly Kodagu district, which has two Assembly Constituencies — Madikeri and Virajpet — that has been a bastion of the BJP for the last two decades with Hindutva being an important plank, has been wrested by Congress.

Congress candidate Ajjikuttira S. Ponnanna (Virajpet) and Dr. Manthar Gowda (Madikeri) have made the BJP taste defeat this time.

While Virajpet Constituency has been represented by K.G. Bopaiah from the Are Bashe Gowda community, the Madikeri Constituency was represented by Mandepanda P. Appachu Ranjan, from Kodava community.

The reluctance of the BJP to field new faces brightened the chances of Congress candidates and this resulted in a neck-to-neck fight and the Congress triumphed.

BJP's Somanna loses both in Varuna and Chamarajanagar

Siddharamaiah wins Varuna, his home turf

Mysuru / Chamarajanagar, May 13- In a huge setback to the BJP, which had rested hopes on Housing Minister V. Somanna, the Congress triumphed in both Varuna Assembly segment of Mysuru district and Chamarajanagar, from where the Minister had contested on a BJP ticket.

Somanna lost by a margin of about 40,941 votes in Varuna as Siddharamaiah got about 98,035 votes against Somanna's 57,094 votes.

In Chamarajanagar, Somanna lost by about 7,533 votes as C. Puttarangashetty got about 83,858 votes against Somanna's 76,325 votes.

With this loss, BJP's dream of winning the two Constituencies lies shattered. BJP had fielded Somanna, sitting MLA of Govindarajanagar in Bengaluru, hoping to defeat Congress bigwig and former CM Siddharamaiah in Varuna, while also asking him to contest from Chamarajanagar, to take on the undefeated Puttarangashetty of Congress.

Debate workshop for High School girl students

Mysuru, May 13- Vivekananda Institute of Indian Studies (VIIS), a unit of Swami Vivekananda Youth Movement (SVYM), is hosting a debate workshop for 8th, 9th and 10th standard girl students from June 12 to 16 in collaboration with ILR School Cornell University, USA, at the Institute in Mysuru.

VIIS offers various customised courses to Universities across the globe and has experience working with over 22 International Universities in US and Canada.

VIIS also facilitates placement of students for internship and volunteering in SVYM and other organisations in Mysuru. More information about the Institute can be had at *www.viis.in*

The Speech and Debate programme at Cornell University is a co-curricular programme boasting world class faculty and staff with combined teaching and coaching experience of 60-plus years. VIIS is partnering with Cornell University since 12 years for a Global Service Learning programme and internships.

Designed with a blended learning model, students are divided into groups led by the Debate coach. The coach will teach all aspects of debate — from argument building to refutation strategy — in these small groups giving each student plenty of time to learn, practice and apply these skills each day of the camp.

Amalia Schneider is Leader on the Spanish Language debate team at Cornell University, Ithaca, New York.

Four of the girls participating in the workshop will receive scholarship to participate in the international summer debate camp at Cornell University.

Interested schools and students may call Mob: 93808-80167 for details and registration.

EDITOR'S BOTTOMLINE

Writing is considered "the act of one person giving a piece of their soul to another." And the "purpose of a writer is to keep civilisation from destroying itself." But one of the common issues faced by publishers is disputes over authorship. Due to "publish or perish" compulsions, there has been a surge in the number of authorship abuse cases. Authorship issues have mostly to do with the phenomenon called author inflation, or the involvement of multiple authors.

Authorship is not just about getting credit for knowledge creation, innovation, or problem solving. It also has to do with taking responsibility for what is written.

It is important for institutions and journals to lay down clear-cut guidelines on authorship. Turning the other way will bring down the credibility of the writers and the academic institutions they belong to. Each institution may consider setting up (if not already in existence) a 'Committee on Publication Ethics' to look into *inter alia* ***authorship issues as well. Awareness of authorship could be part of research methodology courses.***

On their part, it is better that the researchers transparently agree on their respective contributions to a particular article before its drafting. The Contributor Roles Taxonomy (CRediT), which classifies author tasks into 14 categories, is worth taking note of in this regard. Having an authorship contract in written form at the commencement of the project may be considered.

Journals can also insist on clearly identifying the contribution of each author in the publication contract so as to exclude "free riders." Needless to say, careers can be made by credible publications, but they can also be marred by unethical and inappropriate authorship.

NEWS SPARKLERS

Wedding dress with 50,890 Swarovski Crystals

Milan: An exquisite wedding gown with over 50,000 crystals sewn on it has officially broken the Guinness World Record for the most crystals on a bridal outfit. The outfit debuted during the Si Sposaitalia Collezioni fashion show in Milan on April 14, 2023, after four months of preparation, as per a report in the Guinness World Records.

The wedding dress was created by an Italian bridal shop Michela Ferriero which specialises in "luxury and bespoke wedding dresses".

The previous record was held by Zden Gelinlik Moda Tasarim Ltd. from Turkey, which displayed 45,024 crystals at the Forum Istanbul Shopping Mall in Istanbul on January 29, 2011.

Man invents beer-powered motorcycle

Minnesota: A Minnesota inventor who gained a following for his unusual vehicles unveiled his latest creation: a beer-powered motorcycle.

Ky Michaelson, whose previous inventions include a rocket-powered toilet and a jet-powered coffee pot, said the beer-powered motorcycle he created in his Bloomington garage has a 14-gallon keg with a heating coil instead of a gas-powered engine.

Michaelson estimated the bike could reach speeds of up to 150 mph. He said he hopes to take the bike out to a drag strip sometime soon to test its capabilities.

Michaelson's son, Buddy, said the motorcycle could be adapted to run on almost any beverage.

VOICE OF THE READER

Cops must sensitise motorists on use of LED high beam lights

Sir,

This refers to the views of Vinayakrishna on the dangers caused by use of white LED headlights *(SOM* dated May 6). Recently two other readers had also voiced about the use of high beam lights after sunset.

There was also a news item in a national daily where the Police Commissioner of Mangaluru had ordered to curb the use of high beam lights. They had also imposed penalties on violators, as this is a punishable offence.

This is an offence which harms the oncoming person other than the violator and hence should be dealt with firmly.

In my view, Police should concentrate more on these violators than those not wearing helmet or triple riders. What is surprising is that there is not even an attempt to create awareness about this fatal violation. In fact, the checking by Police stops after sunset. Booking of a few cases here and there and publicity about this may create desired impact on the general public.

Most of the vehicle users do not know that it is an offence. Cattle movement on roads such as MG Road after sunset, absence of street-lights, unscientific and unauthorised mini-road humps without reflectors, or even crossing of roads by pedestrians in darkness adds to the chances of fatal accidents when high beam is used.

The Police have a daunting task, but have no option than to face it. A simple and first step in this direction could be to sensitise the public by warning such violators at traffic signals.

Night patrolling to catch drunk driving could also be used for punishing high beam violators.

When publicity is given to such actions it will definitely have positive impact. I am a senior citizen and avoid driving after sunset due to above reason, but, it is practically not possible to completely stop it. There may be many more like me.

Hence, it is an earnest request to the Traffic Police to take some steps in this direction in the interest of general public.

—K.S. Rao
Mysuru 11.5.2023

II

Sir,

I fully endorse the opinion expressed by Vinayakrishna of Lingambudhipalya in his letter titled ***"White LED headlight sparks new danger"*** *(SOM* dated May 6). During night, LED lights from two and four-wheelers cause a lot of inconvenience to oncoming vehicle riders as well as pedestrians, especially aged people.

Hence, the RTO should bring such a law wherein the headlights be used in low beam in city limits. Previously the top half of the headlights were covered with black paint which used to help a lot. I hope the officers concerned will do the needful at the earliest.

National Technology Day celebration at CFTRI

Era of Start-ups has begun: Excelsoft CEO Sudhanva

Excelsoft Technologies CEO D. Sudhanva** (centre), **who was the chief guest during National Technology Day celebration at CFTRI on May 11, seen with Chief Scientist Dr. N.K. Rastogi** (extreme left), **TTBD Section Head B.V. Sathyendra Rao and licensees of CFTRI technologies.

Mysuru, May 13- Maintaining that the era of Start-ups has begun across the country, Excelsoft Technologies CEO D. Sudhanva said Start-ups are mainly driven by fast growing technology and newer innovations.

He was speaking after inaugurating National Technology Day celebration at CSIR-CFTRI in city on May 11.

Observing that Start-ups and Entrepreneurship are a result of rapidly growing Science and Technology, Sudhanva said not much people had an idea of Start-ups in the 1980s. But with the rapid advancement of Science and Technology, Start-ups have sprung up in large numbers, he said adding that they have now become very much part of our life.

Noting that technology has covered everyone of us, he said that we are using technology right from the time we get up in the morning till we go to sleep at night.

Pointing out that technology which was once used only for specific reasons, has now become very much a part of our daily life, Sudhanva said we are dependent on technology for everything, even for delivery of food at our doorsteps.

Stating that fast food supply chain is a result of technology advancement, he said that this trend has resulted in price rise of organic food products.

Continuing, he said that advanced studies and research is going on in the field of Food Science and Food Processing in the country. "Now is the time to discuss the pros and cons of scientific findings of research. Any technology should be a boon and not bane to mankind," he pointed out adding that everyone should ensure that technology is best used only for welfare of the society.

Several Start-ups that were provided technology by CFTRI were distributed certificates and licences on the occasion.

CFTRI TTBD Section Head B.V. Sathyendra Rao, Chief Scientist Dr. N.K. Rastogi and others were present.

Pratibha Puraskar for SSLC and PUC toppers

Leopard caught in poachers' net rescued at H.D. Kote taluk

Hunters suspected to have cast the net to poach wild boar; big cat struggles for eight hours till Forest Officials visit the spot

Mysuru, May 13 (MTY&BS)- A leopard caught in a net, suspected to have been laid to trap wild boar at Alanahalli in Hampapura hobli, H.D. Kote taluk, was rescued by Forest Department personnel yesterday.

The three-year-old male leopard was struggling for life for eight hours, after it was caught in the net laid by poachers, at a vacant land covered by bushes frequented by the villagers as a short cut to avoid the road. As it was raining on Thursday night (May 11) and the villagers had restricted themselves to home, the poachers had planned to take advantage and hence cast the net to trap wild boar.

The leopard, which walked into the trap, tried to wriggle out but the trap got tightened in the process making it more difficult for the big cat to come out on its own. Meanwhile, the poachers are learnt to have visited the spot, only to flee in fear after seeing the leopard in the net.

The villagers who went for cattle grazing at about 10 am, heard the cries of the leopard and followed the sound to see the animal still struggling to come out of the net. They informed Forest Department who came to the spot along with tranquillising experts at around 2 pm. The leopard was tranquillised and shifted to the cage after pulling out the animal from the net.

First aid was administered to the leopard before transporting the cage in a goods autorickshaw. However as the road was humpy bumpy and the auto was driven speedily, the leopard suffered minor injuries, it is learnt.

Irked over the attitude of Forest personnel, who acted in haste to shift the leopard, which added to the pain of already indisposed animal, by hitting against the rods in the cage, in transit, the villagers expressed their disappointment.

Wildlife Warden Kruthika Alanahalli said, "The leopard was rescued in a swift operation soon after receiving the information from villagers. The villagers should inform Forest Department about the bids to poach wild animals. The secrecy will be maintained about informers. If the poaching is not stopped now, the wild animals will go extinct for the next generation. Hence everybody should cooperate with Forest Department in this regard."

DCF Basavaraju and other Forest Officers were present.

People taking pet dogs atop Chamundi Hill ruffles feathers

Mysuru, May 13 (SPN&KS)- Members of the public, who have objected to people climbing the Chamundi Hill steps with their pet dogs, are urging the District Administration to put a stop to it.

They argued that this practice is causing inconvenience to devotees, tourists and their families, who fear being bitten by dogs while climbing the Hill steps. Despite several complaints lodged with the authorities concerned at Chamundi Hill, no action has been taken so far.

International sportsperson Basavaraju pointed out that there is a ban on walking with pet dogs, but no one seems to be following the rule. He urged the authorities to put up a signboard at the foot of the Hill steps mentioning the ban on climbing the Hill steps with pet dogs.

Unidentified man dies at hospital

Mysuru, May 13 (KS) - An unidentified man, who was found lying sick at a vacant space behind a bar on Devalapura Road on May 6 morning and admitted to K.R. Hospital, breathed his last at the hospital the same day at about 3.55 pm.

The deceased is aged about 45 years, 5.5 ft. tall, normal built, oily red complexioned, oval faced and was wearing a black and white coloured full arm shirt and a striped shorts. The kith and kin of the deceased, if any, may contact Mysuru South Police Station on Ph: 0821-2444955 or call the District Police Control Room on Ph: 0821-2444800, according to a press release.

Electricity tariff hiked by 70 paise a unit

Bengaluru, May 13- In a rude shock to the people of the State a day before the counting of votes for Karnataka Assembly polls-2023, the Karnataka Electricity Regulatory Commission (KERC) on Friday hiked power charges by 70 paise a unit for domestic consumers with retrospective effect from Apr. 1.

The tariff is hiked by 70 paise a unit for domestic consumers of all ESComs. However, Industrial and Commercial consumers will pay Re. 1 less a unit, according to the KERC order issued on Friday.

As per the order, the fixed charge under different ESComs has gone up from Rs. 110 to Rs. 210 for consumers utilising more than 50 KW. The hike is moderate on those who utilise less than 100 units.

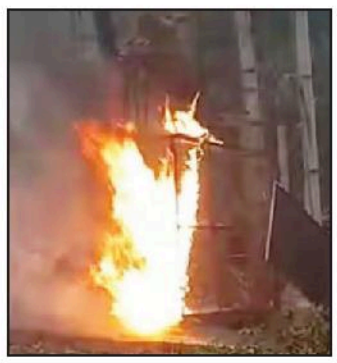
The 70 paise/unit is the biggest increase of tariff announced by KERC in 10 years, surpassing the previous record of 53 paise/unit announced in 2017-18.

In a note, KERC cited a Revenue deficit of Rs. 1,720.11 crore for the previous financial year and 13% rise in the power purchase cost. The 20% hike in pay and allowance of employees and the increase in interest and finance charges by 30% also added to the burden, it said.

Though the order was ready for over a month, the KERC postponed the matter due to election.

Transformer bursts close to CM Bommai's house

Hubballi, May 13- A day before the counting of votes, a power transformer located close to Chief Minister Basavaraj Bommai's residence at Hubballi yesterday burst.



The transformer near the CM's residence at Vishweswaranagar suddenly burst into flames, creating panic in the area for some time. Short circuit is said to be the cause of the burst.

Meanwhile, Netizens who are upset with the Power tariff hike, said that it is the curse of the people that caused the burst.

Siddu Vs DKS: Congress ready with 50:50 formula for CM's post

Bengaluru, May 13 (Agencies)- Buoyed by the election results, the Congress camp is witnessing hectic activities. Sources revealed that the High Command is ready with a '50:50 formula' for the post of Chief Minister.

According to sources, Opposition Leader Siddharamaiah (Siddu) and KPCC President D.K. Shivakumar (DKS) are the prominent contenders for the CM's post. Considering the intense competition between the two, Congress High Command has come up with a 50:50 formula to avoid unnecessary confusion.

Though the tradition of the Congress is to give the power to one who is in-charge of the party, this time exception is being made because of Siddharamaiah. Siddharamaiah and Shivakumar camps are already busy getting the support of future MLAs across the State. The requests are made to them to extend their support.

Former Deputy Chief Minister and senior Dalit leader Dr. G. Parameshwar had met AICC President Mallikarjun Kharge at his residence in Bengaluru and held talks. After the meeting, Dr. Parameshwar claimed that he had not discussed anything about the CM's post with Kharge. "I will not create confusion by talking about this matter. The party High Command will decide who is going to be the future CM."

On the other hand, senior Congress leader Shamanuru Shivashankarappa said a claim will be made for a Lingayat as CM if Lingayat candidates get elected in more numbers. The Congress party has given 51 tickets to Lingayat community candidates.

Congress plans to take MLAs to TN

New Delhi, May 13 (Agencies)- The Congress, within touching distance of victory in Karnataka, started ring-fencing its MLAs as it crossed the halfway mark in leads early today. The Congress triggered the race to power and party sources said the top leaders have planned to take its MLAs to Tamil Nadu (TN) and is in touch with the leadership of the ruling DMK.

Arrangements were also being made to take elected Congress MLAs to Bengaluru by evening. As it surged ahead in early leads, the Congress posted a video of Rahul Gandhi's *Bharat Jodo Yatra* with a caption that appeared to credit the leader with the party's performance. "I'm invincible. I'm so confident. Yeah, I'm unstoppable today," the Congress wrote with a fire emoji.

Several Congress leaders invoked Rahul Gandhi's yatra, saying it "energised" people and damaged the incumbent BJP. Celebrations started early in the Congress as the leads started coming in. If the Congress wins, its main challenge will be a possible tussle over the Chief Minister's post between Siddharamaiah and D.K. Shivakumar.

Varuna Congress MLA and son of former Chief Minister Siddharamaiah, Dr. Yathindra Siddharamiah, said his father should be Chief Minister for the sake of Karnataka. "We will do anything to keep BJP out of power...In the interest of Karnataka, my father should become the Chief Minister," Dr. Yathindra told reporters.

The Congress campaigned hard to wrest power from the BJP, which fought to break the 38-year-old pattern of alternating governments. Congress leaders, including Rahul Gandhi, Sonia Gandhi and Mallikarjun Kharge, held road shows, rallies and elections campaigns. An incumbent government has not returned to power in Karnataka after a full term of five years since 1985.

New Parliament building to be inaugurated by May-end

New Delhi, May 13 (Agencies)- The new Parliament building is likely to be formally inaugurated by the end of this month, according to sources.

Sources further said that the inauguration may tentatively take place on May 26, as it is the date on which Prime Minister Narendra Modi took oath in 2014, though it is yet to be confirmed.

The Prime Minister is expected to inaugurate the new structure. However, sources said that the forthcoming Monsoon Session, which is scheduled to begin in July, is not likely to be held in the new building.

There are speculations that a meeting of Speakers from Parliaments of G20 Nations may take place in the new building later this year, as India has the G20 Presidency for 2023, sources privy to developments said. The triangular shaped building's construction started on Jan. 15, 2021 and was to be completed by Aug. 2022.

Sources say that the new Parliament building has three main gates, which have been named as Gyan Dwar, Shakti Dwar and Karma Dwar. The building will have separate entrances for MPs, VIPs and visitors, sources informed.

Another highlight of the building is the Constitution Hall, which has been built to showcase the democratic heritage of the country. A copy of the original Constitution of India is learned to have been kept in the hall, sources said.

The new Parliament building will have portraits of Mahatma Gandhi, Jawaharlal Nehru, Subhas Chandra Bose and also of other Prime Ministers of the country. A portrait of polymath Kautilya is learned to have been installed in the building along with a model of the wheel of Konark's Sun Temple, sources informed.

Built in an area of 64,500 square metres, the new building will house 1,224 MPs and is a four-story structure. It has a library, multiple committee rooms and dining rooms. Tata Projects has constructed the building at an estimated cost of Rs. 970 crore.

'Bajrang Bali' chants at Delhi Congress Office

New Delhi, May 13 (Agencies)- Celebrations started in the Congress headquarters at Delhi this morning as the party shot past the halfway mark in Karnataka by mid-morning leads. A number of Congress workers were seen dressed as Bajrang Bali Hanuman, in a pointed jibe at the BJP and the right wing.

"Bajrang Bali BJP ke nahi Congress ke sath hain... Bajrang Bali ne BJP par fine lagaya hai (Lord Bajrang Bali is with the Congress. He has levied a fine on the BJP," said one of the workers prancing around in a Hanuman costume.

The choice of garb is a reminder of the huge political controversy over the Congress party's promise of banning right wing groups like the Bajrang Dal "spreading hatred amongst communities on grounds of caste or religion."

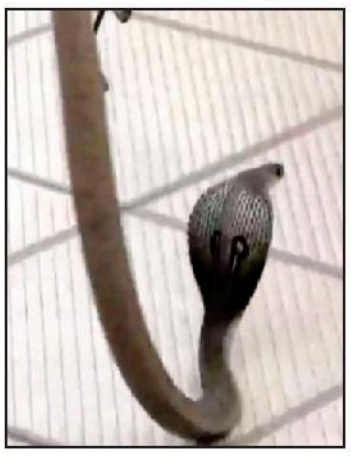
"We believe that law and Constitution is sacrosanct and cannot be violated by individuals and Organisations like Bajrang Dal, PFI or others promoting enmity or hatred, whether among majority or minority communities," the manifesto had said.

Snake enters BJP Office in CM's Constituency

Bengaluru, May 13 (Agencies)- A strange incident occurred at the Shiggaon Constituency this morning, where Karnataka Chief Minister Basavaraj Bommai is running for re-election for the fourth time straight, as the Assembly election votes were being counted in Karnataka.

A snake entered the BJP Office premises in Shiggaon, spreading chaos among the people present there, but it was later rescued, and the building premises were secured amid the CM's presence.

The snake reportedly appeared at the premises of the BJP Office as Bommai arrived there.



The video of the incident also surfaced online. In the video, it could be seen that the snake was captured by the the guards present inside the BJP Office.

- Preetham Gowda (Hassan-BJP)

Cong's big victory mandate is against PM Modi: Siddu

Mysuru, May 13 (BS)- Leader of Opposition in Legislative Assembly Siddharamaiah has termed the humongous victory of Congress party in the Karnataka Assembly elections as the mandate against Prime Minister Narendra Modi, Home Minister Amit Shah and BJP National President J.P. Nadda.

Speaking to media persons in the city this morning, Siddharamaiah who is one of the frontrunners for Chief Minister, also thanked All India Congress Committee (AICC) President M. Mallikarjun Kharge, former AICC Presidents Sonia Gandhi and her son Rahul Gandhi and AICC General Secretaries Priyanka Gandhi, Randeep Singh Surjewala also the Karnataka in-charge and K.C. Venugopal for campaigning for the party, that helped the party score in a big way against incumbent BJP Government.

He thanked Rahul Gandhi again for his much talked about Bharat Jodo Yatra that traversed through several States including Karnataka, which boosted the enthusiasm of the party workers. Siddharamaiah also termed the big victory of Congress as a warning bell to the saffron party ahead of Lok Sabha elections scheduled to be held in 2014.

Coming down heavily on BJP, Siddharamaiah said 'Prime Minister Modi addressed 20 rallies in the State, while former Chief Minister B.S. Yediyurappa was harping on the party winning not less than 130 seats. But it has turned out to be a Congress show and we may win even more than 130 seats."

The people of Karnataka are mature and voted against corruption, hoping for a change in the State. There was a strong anti-incumbency and hence the people were fed up with the Government. Even when BJP formed the Government in the past, be it in 2008 or 2018, the party didn't have sufficient numbers. But they formed the Government by poaching other party MLAs through 'Operation Kamala'. Now, in this election, the voters have taught a lesson to defectors also, said Siddharamaiah.

CONGRESS WINS

(Continued from page 1)

For the BJP, the results are crucial in terms of next year's Parliamentary elections. Karnataka accounts for 28 LS seats.

While the BJP's vote share in the Assembly polls has not dropped in comparison to 2018, the elections indicate that the party has not been able to make its much-needed breakthrough into the Vokkaliga and the Scheduled Castes and Tribes votes.

The fight for the CM's post is expected to come down to KPCC President D.K. Shivakumar and Opposition leader and former CM Siddharamaiah. Notably, the two went out of their way to paint a picture of bonhomie before the polls.

Sources said that as of now, Siddharamaiah seems ahead in the MLA numbers game compared to Shivakumar or any other leader, including AICC President Mallikarjun Kharge (whose name as CM has also been floated by some). Congress' success has been largely due to focus on local issues and avoiding getting entangled in Hindutva rhetoric. The results seem to be along the lines of the exit polls, which had indicated a BJP loss in Karnataka. Congress has gained around 5 percent in terms of vote share when compared to 2018, winning 43 percent of all votes polled.

BJP candidate Preetham Gowda loses Hassan seat

Hassan, May 13- In a rude shock to the ruling BJP, the party lost the prestigious Hassan seat with its candidate and sitting MLA Preetham Gowda losing the seat to H.P. Swaroop of the JD(S), while the Congress came a poor third.

Swaroop *Preetham*

The Constituency has gained all the more attention as BJP's Preetham Gowda had challenged JD(S) Supremo and former PM H.D. Deve Gowda's family to wrest the seat from him. Now Preetham has lost out on the challenge, with Swaroop of the JD(S) winning the seat by a comfortable margin.

Swaroop is the son of former MLA late H.P. Prakash, whom Preetham had defeated in the 2018 polls to become Hassan MLA.

Media, staff glued to TV screens like a nail-biting cricket match

Journalists watching results at Media Room in Counting Centre at Maharani's Women's College of Commerce and Management, Paduvarahalli (Vinayakanagar) in city this morning.

Mysuru, May 13 (RK,MTY,MK&BS)- The Electronic Voting Machines (EVMs) were taken out from the strong rooms at the Counting Centre at Maharani's Women's College of Commerce and Management, Paduvarahalli (Vinayakanagar) in the city at 8 am, in the presence of Deputy Commissioner Dr. K.V. Rajendra, who is also the District Electoral Officer, Election Observers and the agents of respective candidates of all the 11 Assembly Constituencies of the district.

Later EVMs were shifted to the rooms where arrangements had been made for counting of votes.

The counting of votes of Varuna and K.R. Nagar Constituencies were held at the ground floor while Chamaraja, Krishnaraja, Narasimharaja and Periyapatna Constituencies were held on the first floor, H.D. Kote, Nanjangud, Chamundeshwari and T. Narasipur in second floor and Hunsur Assembly Constituency in third floor.

Three-pronged security

Three-pronged security arrangements were in place with the counting centre turning into a virtual fortress, with the gun-toting Central Armed Police Forces (CAPF) personnel along with the local Police deployed at the main gate and main entrance and the inside of counting centre spread in three floors of the building.

Metal detectors

Apart from Door-Framed Metal Detectors (DFMD), even Hand-Held Metal Detectors (HHMD) were used to frisk the Officers on counting duty, candidates and media persons alike before entering the building. Barring those possessing ID cards issued by the Election Commission, others were not provided any access to the counting centre.

All the roads leading to the counting centre were out of bounds for the public with Police banning movement of vehicles from 5 am to 5 pm today. Mobile phones were also prohibited inside the counting rooms but media persons were allowed to carry phones to media centre.

Staff hooked to TV

Like a nail-biting cricket match that keeps the sports-lovers hooked to TV screens, the counting of votes had kept many on tenterhooks.

The media and the auxiliary staff deputed on counting duty were also seen hooked to TV screens in the premises of counting centre.

Apart from attending to counting duty, as and when they received a call from their higher ups, they were seen thronging the place, where TV screens were installed to keep a track on the results, in the break time.

People climb roof tops near Counting Centre

The roads in the vicinity of counting centre in Paduvarahalli were dotted with people riding high on curiosity. Apart from occupying whatever spaces were available on the roads, some others had even occupied the stairs, balconies and roof tops of the houses in the surroundings, to catch a glimpse of the leaders turning up at the Counting Centre.

Teary eyed D.K. Shivakumar thanks Kharge, Gandhis, Siddu

Bengaluru, May 13- KPCC President D.K. Shivakumar thanked all the leaders including AICC President M. Mallikarjun Kharge, former Congress Presidents Sonia Gandhi and her son Rahul Gandhi and AICC General Secretary Priyanka Gandhi and former Chief Minister Siddharamaiah for scoring a big victory in the Assembly elections, the counting of votes of which were held today.

Shivakumar, with tears flowing down his cheeks and choked tone said, "I had told Sonia Gandhi that I will bring the party to power in Karnataka and have striven hard for this big victory. I also thank the party leaders and workers for their contributions, who had tirelessly worked hard for this day."

Siddu visits counting Centre

Mysuru, May 13 (MK&BS)- Leader of Opposition in Legislative Assembly Siddharamaiah flashed a victory sign during his visit to the counting centre at Maharani's Women's Commerce and Management College at Paduvarahalli (Vinayakanagar) in the city this morning.

Even as the counting of votes was underway and the early trends were in favour of the party, Siddharamaiah, the Congress candidate in Varuna Assembly Constituency in the district, arrived at the counting centre. He left the centre after a while but refused to speak to media.

V. Somanna, the BJP candidate against Siddharamaiah in Varuna, also visited the venue of counting and returned after taking stock of the process.

Father, son win!

Jubilant party workers lift JD(S) candidates G.T. Devegowda (Chamundeshwari Constituency) and his son G.D. Harish Gowda (Hunsur) upon their victory in the Assembly elections, outside the Counting Centre in city this afternoon.

Will do some soul-searching, says State BJP Chief Kateel

Bengaluru, May 13- As the Assembly poll results started pouring in and the ruling BJP faced a humiliating defeat at the hands of the Congress, the BJP has accepted the loss.

During a press conference at the party office in Malleswaram this afternoon, State BJP President Nalin Kumar Kateel said that the BJP has accepted defeat. The party had not expected such a rout as there were hopes that the BJP would win at least 100 seats.

However, that did not happen, and the Congress emerged as the winner. "We will analyse the results Constituency-wise in a day or two and introspect on the reasons why the party lost so many seats, which the party had hoped to win. Now that the results are out and the Congress is the winner, we will sit in the Opposition," he said, adding that the BJP will gear up for the Lok Sabha (LS) polls next year.

When asked why the rallies of Prime Minister Modi and Union Home Minister Amit Shah seemed to have made no impact on the voters, Kateel said that was not the case. He stated that the verdict is also not against the administration of the Modi Government, while dismissing the Congress claims that the people's verdict was, in fact, against Modi and Amit Shah, who repeatedly visited the State ahead of polls and addressed over 40 rallies.

Kateel further added that the BJP will learn from this poll defeat and take corrective steps to ensure that the party wins the maximum seats in next year's Lok Sabha polls.

Winners of State-level Technical fest "AVAGAMAH"

A group photo of the winners, participants and organising team of Technical Fest AVAGAMAH.

Mysuru, May 13- The Department of Electrical and Electronics Engineering, ATME College of Engineering (ATMECE), Mysuru, had organised an FDP on State-level Technical Fest "AVAGAMAH" in association with 'Quantum' at its campus on May 8.

It was a platform for students to exhibit their technical ability and create awareness about the latest research and inventions in the stream of Electrical & Electronics Engineering and Electronics & Communication Engineering.

Dr. N. Shamala, Professor and Head, Department of Electrical and Electronics Engineering, VVIET, Mysuru, Dr. N. Lokesh, Assistant Professor, Department of Electrical and Electronics Engineering, NIEIT, Mysuru and Dr. Prakash Kuravatti, Associate Professor, Department of Electronics and Communication, ATMECE, were the chief guests.

Technical Project Expo was held online and offline as part of the Fest. Capstone projects from various parts of the State were also exhibited.

Offline winners: The project titled Mitigation of Voltage Sag, Sell and Harmonics using UPQC presented by S. Chandra Mohan, Trupthi E. Gowda, Vaibhav Surendra, M. Yashas and D.R. Raghunandan, Department of EEE, JSS STU, Mysuru, bagged 1st place.

EV Mithra presented by K. Kumar Gowda and Abdulla Danish, VVIET, Mysuru, bagged 2nd place while Portable Ventilator for Critical Health Care Application presented by M. Meghana, S. Jeevan, S. Shashank and Prasanna of ATMECE bagged 3rd place and Aqua Quality Surveillance Boat presented by M. Charan, S. Sharada, P. Suman and E.S. Yashas of VVIET bagged consolation prize.

Online winners

The project titled Low-cost E-Rickshaw for Rural Application presented by V. Rakesh, B. Sridhar, M. Kowhtubha and R. Rohan Gowda of DBIT, Bengaluru, bagged 1st place.

IoT-based System to Control Household Appliances and Monitor its Energy Consumption presented by Md. S. Mohseen, Mohammed Sohail, P. Rushmitha Sai and E. Peshumam of BITM, Ballari, bagged 2nd place.

A Multi-purpose Drone for Drugs Distribution, Sanitisation and to provide COVID-19 Awareness presented by M.S. Shivaraj, B. Varshitha and N. Roja of GMIT, Mandya, bagged 3rd place while Real-Time Face Mask Detection and Monitoring system RFMDM, presented by K.B. Pavan, N. Aparna and K. Bhaumik of NMIT, Bengaluru bagged consolation prize.

Cash prizes and certificates were distributed to winners.

Dr. L. Parthasarathy, HoD, Electrical and Electronics Engineering, M. Praveen Kumar, R. Shreeshayana, Event Coordinators, faculty and students were present, according to a press release from C. Chandra Shekar, Lecturer, CPC and PRO, ATMECE [Mob: 98451-15924]

CFTRI to conduct short-term courses

Mysuru, May 13- CSIR-Central Food Technological Research Institute (CFTRI), Mysuru, is organising various regular training programmes/Skill Development Programmes and short-term courses in this financial year under CSIR Integrated Skill Initiative, encompassing all the major areas in Food Science and Technology.

The schedule of the courses for 2023-24 has been hosted on the Institute website *(www.cftri.res.in)*. These courses are of short duration, but intensive and packed with lectures and demonstrations.

The faculty members for the courses have vast experience in specific areas of Food Science and Technology. The demonstrations and practical classes are conducted in the state-of-the-art laboratories and pilot plants of CFTRI. Training includes theory and hands-on practical sessions on: Food Safety Issues; Paddy and Rice Processing; Animal Cell Culture; Liquid Chromatography - Mass Spectrometry (LC -MS); Flour Milling Baking and Confectionary Technology; Fumigation and Pest management; Rodent management; Electrical Safety in Food Processing Industry; Molecular Biology; Post- Harvest Technologies for Fruits and Vegetables; Grain Processing; Spice processing; Sensory analysis; Probiotic dairy product development; Food analysis; Food Packaging; Edible Oil Extraction.

Successful participants will be given participation certificate at the end of the course. These programmes will be beneficial for unemployed youths or entrepreneurial aspirants to establish their Start-up venture based on Food Processing.

The Institute is a Training Partner (TP) for conducting Skill Development Programmes (SDPs) aligned with National Skill Development Corporation (NSDC) under Skill India Mission of Government of India for the skills like Baking Technician/ Operative (FIC/Q5005), Food Microbiologist (FIC/Q7603) and Spice Processing Technician (FIC/Q8502).

Academic Institutions/Government Departments/Industry/FPOs can contact CFTRI for custom-made programmes exclusively designed for their students/staff/sponsored-participants in the area of Food Processing. CFTRI has trained nearly 2,800 personnel in 2022-23 under various training streams such as Pradhan Mantri Formalisation of Micro Food Processing Enterprises (PMFME) Scheme, farmer-centric training programmes, SDPs aligned with NSDC and short-term courses.

These courses will be held from **third week of May 2023 onwards and ends during third week of January 2024 in different time intervals.** For more information and registration, visit: *https://stc.cftri.res.in*, according to a press release from Dr. Parigi Ramesh Kumar, Senior Principal Scientist, Technology Transfer & Business Development (Information and Publicity) & Coordinator (ISTU), CSIR-CFTRI.

Music Varsity invites applications from educational institutions

To conduct UG, PG, diploma courses

Mysuru, May 13- Applications are invited from educational institutions/centres registered under Registration of Societies Act, Trust Act or any other Act of the Central/State Governments, for getting recognition from Karnataka State Dr. Gangubai Hangal Music and Performing Arts University, Mysuru, for conducting Under-Graduate, Post-Graduate, Diploma, PG Diploma and Certificate Courses of the University as per University MoU statute from the academic year 2023-24.

Institutions / centres which are interested to conduct the said programmes may submit applications in the prescribed proforma along with relevant documents before May 31 to the Registrar, Karnataka State Dr. Gangubai Hangal Music and Performing Arts University, Mysuru. For application format and details, visit *www.musicuniversity.ac.in,* according to a press release.

Veerashaiva-Lingayat matrimonial meet on June 4

Mysuru, May 13- Sri Basaveshwara Vadhu-Varara Vivaha Vedike at Shivapura, Manandavadi road, Srirampura, will be conducting a mega matrimonial meet of prospective Veerashaiva-Lingayat Brides and Bridegrooms at Sri Vidyabharathi Kalyana Mantapa, Uttaradi Mutt road, near Gun House in city at 12 noon on June 4.

Bridegrooms must be at least a graduate and should have a good job in hand. Registration is free for brides with educational qualification of SSLC and PUC.

Interested community brides and grooms from Mysuru, Chamarajanagar, Mandya and Kodagu districts can register before June 3. For more details, call Mob: 96862-05346.

Premature baby gets new lease

of life at Motherhood Hospital in city

Mysuru, May 13- Motherhood Hospital, Mysuru, saved the life of a 28-week preterm baby girl who was in need of critical neonatal intensive care.

Devika Mahesh, from a remote village near Gundlupet, conceived after 15 years of marriage. The mother gave birth to twins at 28 weeks (7 months of pregnancy) due to complications. The delivery happened in a private hospital, where the team of doctors did their best to save both the babies. However, only one of the babies survived due to severe birth related complications. The surviving preemie baby girl, weighing 1.050 kgs, experienced respiratory distress, life-threatening infections, multi-drug resistance and severe pneumonia.

The baby needed tertiary NICU care and hence was shifted to Motherhood Hospitals in 'NICU on Wheels,' an ambulance designed to transport critically ill newborn babies.

Upon diagnosis, the team of Neonatologists observed that the baby was having low platelet count, thereby exposing her to severe infection. The doctors completed a blood and platelet transfusion to save her. But after 2 weeks, the health of the baby deteriorated again because of the same resistant infection. The preemie stayed at the NICU for 5 weeks and underwent multiple therapies. The little one was put on prenatal nutrition with healthy mother's milk. Regular checks were conducted on the heart, head, lungs and gut.

Dr. B. Chetan, Consultant Neonatologist, Motherhood Hospital, said, "Our team played a vital role in retrieving the baby by providing that timely treatment. As the family was not able to afford for the treatment, we approached Neonates Foundation of India to seek financial aid."

He further said: "With timely intervention and quality treatment the baby's condition improved. The team was observing the progress the baby was making. She was also kept on tube feeds and gradually began to gain weight. On discharge, the baby weighed 1.620 kgs and was breathing on her own without oxygen as well as taking in normal feeds. The baby will be on constant follow up by our neonatology team along with paediatric neurology assessments being done at 3, 6, 9,12 months and thereafter at 1.5 years to assure best outcome."

Dr. Suhaim Afsar, Consultant Neonatologist and Paediatrician, Motherhood Hospital, was also part of the team.

Expressing his gratitude, the baby's father Mahesh said: "My family and I are grateful to the team at Motherhood Hospitals for saving our daughter. We are also grateful to Neonates Foundation of India who has provided financial support for the treatment."

The baby was discharged after 55 days of NICU stay in stable condition, said B.J. Sandeep Patel, Facility Director, Motherhood Hospital, Mysuru.

National Dengue Day on May 16

Mysuru, May 13- The District Health and Family Welfare Department will observe National Dengue Day on May 16 in order to create public awareness on the dangers of the deadly disease.

Dengue is spread by a species of Mosquito called as Aedes Aegypti. Fever is the main symptom of the disease, which catches up 3-14 days after mosquito bite.

The precautionary measures to be taken include emptying of water collected in plastic containers, buckets, old automotive tyres, flower pots, coconut shells etc., at least once a week, water utensils and containers must be closed, aerosol must be used during day to ward off mosquitoes, use of curtains during sleep etc.,

The public are asked to undergo a check-up at their nearest Health Centre if they are affected with fever and develop other symptoms of the disease.

Citizens asked to drink boiled water

Mysuru, May 13 (SBD)- In the backdrop of recent rains in city and the expected Monsoon, Mysuru City Corporation (MCC) has advised citizens to use boiled water as the water supplied may be contaminated.

Though the Corporation supplies purified water, it is better to take extra precaution.

The Executive Engineer of the MCC Water Supply and Under Ground Drainage, West Division, in a press release, said that people should not drink the water as supplied but use it after boiling.

Health is at our kitchen, not hospitals: Dr. Khader Vali Dudekula

Dr. Khader

Mysuru, May 13 (BS)- Food and nutrition expert *Padma Shri* Dr. Khader Vali Dudekula has said: 'Health is not at hospitals, but in our kitchen.' Khader addressed the students of Pharmacy and Life Sciences, during a camp organised at Suttur Srikshetra in Nanjangud taluk in the district, from May 3 to 5.

Speaking on the topic 'Lifestyle and Health', Dr. Khader said: "There is no need to take medicine if our food is good. By consuming desi food, we can keep good health. Due to over processing of food, even the food is turning poisonous. None of the medicines can fully cure the disease, as in the name of Science and Technology, we have been consuming more medicines. Hence, we can safeguard our soft organs by consuming millets. But the water intensive food is not good for health."

Violin exponent Dr. Mysore M. Manjunath, who delivered a lecture on the topic 'Indian Classical Music,' said: "Music is a medium to experience the feelings, which doesn't require the knowledge of raga, tala and shastras. The environment is filled with music, as one can sense music even in the chirping of birds and lullaby of mother. Music is also not bound by any language."

Later, Dr. Manjunath performed in brindavana saranga raga, followed by bhajan 'Raghupati Raghava Rajaram.'

A total of 130 students from Pharmacy and Life Sciences Colleges from Ooty and Mysuru attended the camp.

The participants of the camp attended mass prayers in the morning, followed by Yogasana and Meditation.

District Administration's efforts to boost voting percentage fail to enthuse city voters

Mysuru, May 13 (SBD&TRR)- Despite the extensive efforts of the District Administration and District Systematic Voters' Education and Electoral Participation (SVEEP) Committee to boost up the voting percentage in the district, the voters of three Assembly segments in Mysuru city have continued to show their apathy resulting in nullifying the well intentioned efforts of the District Administration.

The percentage of voting in KR Constituency is the lowest in the district. The voter turnout this time is 59.55 percentage a mere 0.69 percentage higher than last time (58.86 percentage).

In Chamaraja, present voting stood at 61.05 percentage as against last time's 59.18 percentage recording an increase of 1.87 percentage.

NR Constituency recorded a voting percentage of 61.43 percentage as against 61.05 percentage, last time.

Noting that voting percentage in urban areas was less in previous elections, the District SVEEP Committee had organised many voting awareness programmes.

Installation of hoardings depicting the importance of voting, painting exhibitions, three wheelers rally by specially abled, vintage car rally, human chain formation, colourful rangoli, variety of jathas were part of the awareness programmes to propagate the importance of voting.

Former cricketer Javagal Srinath and yoga exponent H. Khushi, as the District SVEEP Ambassador and District SVEEP Icon respectively, led the voter awareness campaign in city.

Deputy Commissioner Dr. K.V. Rajendra had repeatedly urged voters to participate in the Festival of Democracy. Many voting booths were specially decorated to attract voters. But despite all these sincere efforts by the District Administration, the voting percentage didn't improve to the desired extent. The reasons of urban voters' apathy need to be ascertained and more effective steps has to be taken to increase the voting percentage in future.

After voting, saplings planted

MY VOTE, MY POWER: ***Spandana, Mysuru, celebrated the 'Festival of Democracy' by planting Algomania saplings at Taponandana Park in Kuvempunagar after the members exercised their franchise for their candidates at Krishnaraja Constituency on May 10. Seen are Dr. Marulasiddappa, Lakshman, Prakash, Shruthi Mahadevakumar, Narasimha Murthy, Keerthana, Punarvi, Raghu, Jagadhisha, Tirumala and M. Jayashankar, President, Spandana.***

WORD OF THE DAY

Sinecure

Pronunciation: SYE-nih-kyoor.
Meaning: Refers to a usually paid job or position that requires little or no work.
Origin: A sinecure (pronounced \SYE-nih-kyoor\) sounds like a pretty sweet deal: it's a job or title that usually comes with regular money but with little or no work. While the thing sinecure refers to might be desirable, the word itself is typically used with disdain—if someone refers to your job as a sinecure they don't think you earn the money you collect by doing it. The word's roots are likewise served with some side-eye: it comes from the Medieval Latin sine cura, meaning "without cure" — the lack of cure in this case being one for souls. The original sinecure was a church position that didn't involve the spiritual care or instruction of church members (theoretically, the church's sole purpose). Ecclesiastical sinecures have been a thing of the past since the late 19th century; positions referred to with the word these days are more likely to be board positions or academic appointments that require no teaching.
Example: "To make matters worse, architects of failure are rarely, if ever, held accountable. Instead of acknowledging their mistakes openly, even discredited former officials can head off to corporate boards, safe sinecures, or lucrative consulting firms, hoping to return to power as soon as their party regains the White House. Once back in office, they are free to repeat their previous mistakes, backed by a chorus of pundits whose recommendations never change no matter how often they've failed." —Stephen M. Walt

THE ODD WORD

Sanative

Healing.

PHRASE OF THE DAY

The salt of the earth

Meaning: People who are described as 'The salt of the earth' are those who are considered to be of great worth and reliability.
Origin: The phrase derives from the Bible, Matthew 5:13 (King James Version): Ye are the salt of the earth: but if the salt have lost his savour, wherewith shall it be salted? It is thenceforth good for nothing, but to be cast out, and to be trodden under foot of men. The positivity towards salt in this phrase conflicts with many other uses of the word salt, which has also been used to express negative concepts; for example, in the Middle Ages, salt was spread on land to poison it, as a punishment to landowners who had transgressed against society in some way. 'The salt of the earth' was first published in English in Chaucer's Summoner's Tale, circa 1386, although Chaucer undoubtedly took his lead from Latin versions of the Bible: Ye been the salt of the erthe and the savour.

QUOTE BOX

If you tell the truth, you don't have to remember anything.—**Mark Twain**

Sudoku is a number-placing puzzle based on a 9x9 grid with several given numbers. The object is to place the numbers 1 to 9 in the empty squares so that each row, each column and each 3x3 box contains the same number only once. The difficulty level of the Concept is Sudoku increases from Monday to Sunday.

CRYPTOQUIP

The Cryptoquip is a substitution cipher in which one letter stands for another. If you think that X equals O, it will equal O throughout the puzzle. Single letters, short words and words using an apostrophe give you clues to locating vowels. Solution is by trial and error.
